In re Application of :  
Keith Cangiarella :  
Application Number: 10/804499 : ON PETITION  
Filing Date: 03/19/2004 :  
For: NOVELTY MESSAGE KIT :

This is a decision on the "Petition to reset a period of Response," filed on 27 April, 2007, which is treated as a petition to withdraw holding of abandonment.

This application became abandoned on 14 December, 2006, for failure to file a timely reply to the Notice of Non-Compliant Amendment (37 CFR 1.121) mailed on 13 November, 2006, which set a one (1) month shortened period for reply. No extensions of the time for reply in accordance with 37 CFR 1.136(a) were obtained. The filing of the present petition precedes the mailing of Notice of Abandonment.

Petitioner, *pro se*, states that he never received the Notice mailed on 13 November, 2006. Petitioner argues, essentially, that the application should not be considered abandoned, but rather that the Notice should be remailed, and a new period of reply set, because the USPS failed to deliver the Office correspondence.

Petitioner's argument has been considered, but is not persuasive.

A review of the record indicates no irregularity in the mailing of the Notice, and in the absence of any irregularity in the mailing, there is a strong presumption that the Office communication was properly mailed to the address of record. This presumption may be overcome by showing that the Office letter was not in fact received. However, petitioner has not met the showing required to establish nonreceipt of an Office letter. To establish nonreceipt of an Office communication, a petitioner must: 1) include a statement that the Office communication was not received; 2) attest to the fact that a search of the file jacket and docket records indicates that the Office communication was not received; and 3) include a copy of the **docket record** where the nonreceived Office action would have been entered had it been received and docketed.<sup>1</sup> A proper docket report consists of a "docket record **where the nonreceived Office action would have been entered had it been received and docketed.**"<sup>2</sup> "For example, if a three-month period for reply was set in the nonreceived Office action, a copy of the docket record showing **all** replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted..."<sup>3</sup>

However, as petitioner is a *pro se* applicant, the Office understands that petitioner may not keep a formal docket record system for his correspondence. Nevertheless, petitioner must provide some sort of showing explaining the manner in which petitioner receives mail from the USPTO, maintains files for patent matters, and treats mail received for such matter. Specifically, petitioner must explain the system for keeping track of patent matters - where petitioner keeps the correspondence; where he writes down due dates; how he knows replies are due, etc. In essence, petitioner must explain how he reminds himself of response due dates and show that the due date for the Notice mailed on 13 November, 2006, was not entered into that system. The Office would like to see documentary evidence and records as may exist which would substantiate that petitioner exercised due diligence with respect to petitioner's most important business.

As such the application is properly held abandoned.

The petition is **DISMISSED.**

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.181."

#### **ALTERNATIVE VENUE**

Petitioner may wish to consider filing a renewed petition under 37 CFR 1.137(b), which now provides that where the delay in reply was unintentional, a petition may be filed to revive an abandoned application or a lapsed patent pursuant to 37 CFR 1.137(b). A grantable petition pursuant to 37 CFR 1.137(b) must be accompanied by:

(1) the required reply, unless previously filed. In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In a nonprovisional utility or plant application filed on or after 8 June, 1995, and abandoned for failure to prosecute, the required reply may also be met by the filing of a request for continued examination in compliance with § 1.114. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or any outstanding balance thereof. In an application, abandoned for failure to pay the publication fee, the required reply must include payment of the publication fee.

(2) the petition fee as set forth in 37 CFR 1.17(m);

(3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional; and

(4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to 37 CFR 1.137(c)).

The filing of a petition under the unintentional standard cannot be intentionally delayed and therefore should be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner

intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

Should petitioner decide to file a petition under 37 CFR 1.137(b), the additional petition fee due would be \$750.00 for a small entity.

A copy of the form for filing a petition under 37 CFR 1.137(b) to revive an application unintentionally abandoned is enclosed herewith for petitioner's convenience.
